PROFESSIONAL SUMMARY

Apprentice Technology professional at Standard Chartered GBS with experience in process coordination, documentation, validation, reporting, and stakeholder support within a regulated banking environment. Strong attention to detail with experience supporting process governance, compliance activities, exception handling, action tracking, and structured reporting. Skilled in Microsoft Excel, Microsoft Office, SharePoint, SQL, documentation management, and cross-functional coordination.

EDUCATION

2021 – 2025 **B.Tech in Computer Science and Engineering**, SRM University AP (GPA: 8.24/10)

WORK EXPERIENCE

Development Engineer Apprentice – Standard Chartered GBS India *Sep 2025 – Present*

- Supported process workflows in a regulated banking environment with a strong focus on accuracy, documentation, validation, and control adherence.
- Assisted in reviewing operational data and validation outputs to identify gaps, reduce exceptions, and improve process quality.
- Used Microsoft Excel-based tracking and structured reporting to support follow-up activities, issue visibility, and timely action closure.
- Maintained process documentation and contributed to consistency across validation, exception handling, and release support activities.
- Coordinated with internal teams including Development, QA, and DevOps to support issue resolution and ensure smooth process execution.
- Contributed to control-oriented delivery by supporting validation checks, monitoring outputs, and escalating discrepancies when required.
- Assisted in preparing operational information and status updates for internal stakeholders in a clear and structured format.

Full Stack Developer Intern – Infosys Springboard *Nov 2024 – Feb 2025*

- Supported application development, testing, documentation, and project coordination activities while collaborating with team members.
- Worked with structured data and SQL reporting to improve information retrieval and support analysis requirements.
- Assisted in maintaining project documentation and tracking development activities to support timely completion of requirements.
- Gained experience in cross-functional communication, structured reporting, and coordination within a project-based environment.

PROJECT HIGHLIGHTS

RTDDI Platform – Standard Chartered Bank *2026 – Present*

- Supported a multi-country and multi-channel processing platform with a focus on validation accuracy, standardisation, documentation, and operational support readiness.
- Assisted in building structured components that improved traceability, information organisation, and process clarity.
- Contributed to validation and exception-handling activities to support issue visibility and internal coordination.

Bank Indonesia Fast Payment – Standard Chartered Bank *Jan 2026 – Apr 2026*

- Supported routing and configuration activities across country- and channel-specific workflows.
- Assisted with testing, documentation, validation, and deployment coordination to support readiness and process compliance.
- Worked with multiple teams to support delivery milestones and maintain structured progress tracking.
