PROFESSIONAL SUMMARY

Apprentice Technology professional at Standard Chartered GBS with experience in payment operations, process-focused automation, and control-oriented delivery in regulated environments. Skilled in identifying process gaps, strengthening validation controls, supporting risk/compliance adherence, and improving turnaround through data-driven analysis using Excel and SQL.

EDUCATION

2021 – 2025 **BTech in Computer Science and Engineering**, SRM University (GPA: 8.24/10)

WORK EXPERIENCE

Standard Chartered GBS India

Sep 2025 – Present

Development Engineer Apprentice

- Supported end-to-end ISO 20022 message workflows (**pacs.002**, **pain.012**, **camt.005**, **admi.002**) across channel and country-specific process paths.
- Implemented field-level and business-rule validations before transformation to reduce downstream exceptions and improve processing accuracy.
- Developed TAR (RPP 101) CSV parsing workflow to standardize report ingestion and improve operational traceability.
- Built scheduler-driven debit enquiry workflows aligned to SLA timelines for timely follow-up and exception handling.
- Contributed to release validation, production support, and process documentation to improve policy/process consistency. Collaborated with Dev, QA, and DevOps teams to resolve issues, improve stability, and support controlled change rollout.

Infosys Springboard

Nov 2024 – Feb 2025

Full Stack Developer Intern

- Built and deployed a web application with backend services and relational database integration.
- Improved SQL query performance and data retrieval efficiency to support faster reporting and user response times.

PROJECT HIGHLIGHTS

RTDDI Platform – Standard Chartered Bank

2026 – Present

- Supported integration of multi-country/multi-channel direct debit flows into a unified processing platform.
- Built modular validation, transformation, and persistence components to improve maintainability and control.

Bank Indonesia Fast Payment – Standard Chartered Bank

Jan 2026 – Apr 2026

- Supported microservice routing configuration by channel/country and contributed to test automation with JUnit/JaCoCo.
- Assisted deployment via Kubernetes/Helm pipelines in Azure DevOps.

CORE SKILLS

Process Management, Exception Handling, Validation Controls, Process Documentation (SOP/DOI), Operational Risk Awareness, Compliance Support, Stakeholder Communication, Excel, SQL, Java, REST APIs, Oracle, Git, Azure DevOps, Kubernetes, Helm

ACHIEVEMENTS & CERTIFICATIONS

- Shiv Nadar Foundation (SNF) 100% Academic Scholarship
- NPTEL: Database Management Systems (Elite)
- Standard Chartered: Fundamentals of Containerization — Payment Domain Training — SC DevKit Essentials
